

MMS JSC Corporate Profile

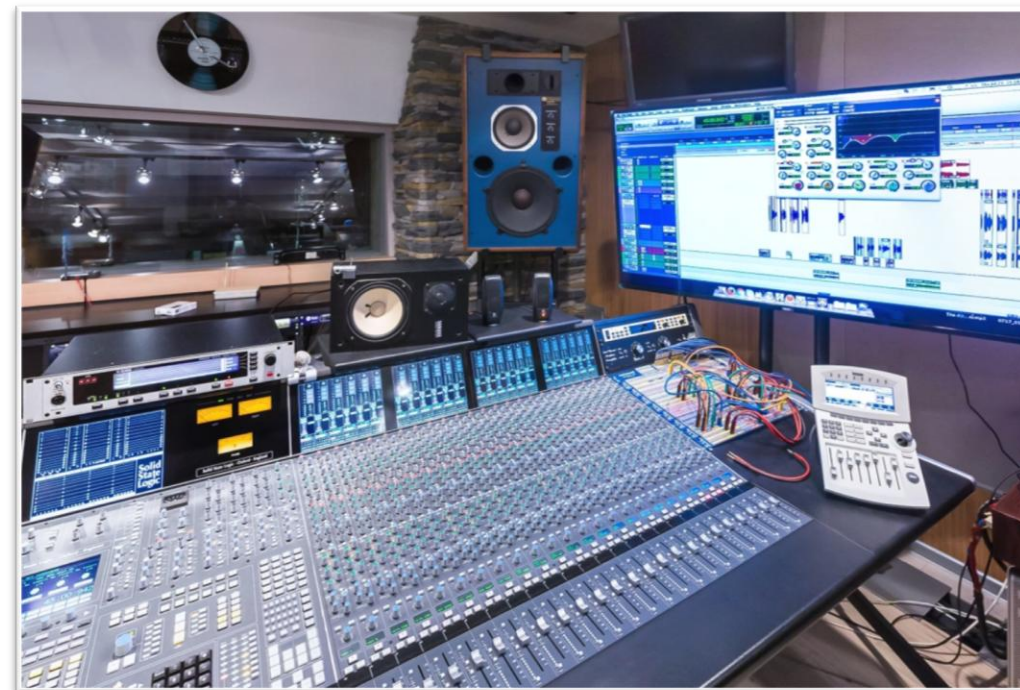

MMS — Moscow Musical Service

MMS Joint-Stock Company was founded in 1991 by a small group of professional musicians and sound engineers.

They established a recording studio which quickly gained popularity among musicians of the time.

Thanks to the unique combination of thoroughly selected analog and digital equipment and musical instruments, the studio is still operating successfully.

Milestones

1994

MMS started to deliver American car security systems Clifford, Excalibur, and Prestige. Later the range was expanded with Italian Cobra alarm systems.

 Harman International

CLIFFORD
World-Class Auto Security™

1994

MMS became the exclusive distributor of Harman International: the company's portfolio was expanded with world-famous brands of car acoustics: JBL, Infinity and Harman Kardon.

1996

We brought to the market security systems under own brands, such as Alligator, KGB and APS, which became one of the company's key businesses for many years.

 **ALLIGATOR**

1996

One of the most important milestones was the birth of our own Prology brand. In 1996, the Prology brand was officially registered, and in 1997, first devices under this brand appeared on the market of car head units and stereo systems.

2000

Prology launched the first in-car LCD TV in the Russian market.

PROLOGY
CAR AUDIO & MULTIMEDIA

Milestones

2007

We started distributing Harman Kardon, JBL and Infinity home audio and multimedia.

2009

MMS Cinema division was established within the company for distribution of professional home theater equipment and Hi-Fi and High-End systems.

2009

To demonstrate the best technical solutions for home theatres and stereo systems, we built the largest showroom in Europe with the area of 450 sq.m.

2010

MMS signed an exclusive distribution contract with the German brand Ground Zero, which led to the creation of the Car Music division.

2023

We patented the invention of the world's first 8-channel media receiver with a built-in DSP.

Businesses and Products

For more than 30 years, MMS has been a key player in the Russian electronics market. We offer a wide range of products and solutions in the fields of car audio and home entertainment that contribute to the daily lives of our customers.

Prology Own Brand

In 1996, the Prology trademark was officially registered in Russia. Today, the range of Prology products includes head units (1DIN / 2DIN), speakers, subwoofers, amplifiers, as well as car accessories.

Car Music Department

MMS is an exclusive distributor and representative of the world's leading manufacturers of acoustic systems and car electronics in Russia, Belarus, Kazakhstan and Kyrgyzstan. We provide effective cooperation, professional technical support, and service.

Cinema Department

MMS Cinema is a specialized division within the MMS company that has been supplying home theater equipment and stereo systems since 2009. In 2012, MMS Cinema started developing the Hi-Fi / Hi-End niche.

Recording Studio

MMS studio has recently been completely modernized. The studio equipment allows live recording of various musical genres in three separate rooms, as well as mixing and mastering.

Car Music Department

With products sold in 82 countries, Ground Zero is one of the most respected brands in the world of car audio. With more than 400 products in various categories, Ground Zero produces world-class amplifiers, subwoofers and loudspeakers for true lovers of quality sound. GZ products are annually honored with awards for their superior performance, thoughtful design and excellent value for money.

BLAM's success is based on the experience of specialists who have dedicated more than thirty years to the design and development of top-class acoustics for home and car audio systems. All BLAM-branded products undergo strict control at all stages of production to ensure impeccable quality and consistent performance.

ESB Audio is an Italian brand with a worldwide reputation, founded in 1972. It is one of the most famous loudspeaker manufacturers of the second half of the twentieth century. During its rich history, ESB Audio has produced many innovative high-tech products in the field of sound reproduction, which have won great popularity all over the world.

Goldhorn Electronics is one of the leading manufacturers of car audio system solutions in China, founded in 2004. The production uses DACs and ADCs, as well as DSPs from well-known brands such as Asahi Kasei Microdevices, Analog Devices, Texas Instruments and STMicroelectronics. One of Goldhorn's unique developments is the SkyAtom technology, which allows you to create an immersive sound environment with surround sound effects in your car. The product range includes several series of sound processors and Hi-Res sound sources.

Morel is one of the largest speaker manufacturers in the world. Founded in 1975 by Meir Mordechai in Israel, the brand has been associated with superb sound and performance for more than three decades. The success of Morel products is based on years of experience and the use of unique patented technologies, new designs and materials.

Founded in the USA in 1974, Zapco is one of the oldest and most respected companies in car audio market. Most of the brand's achievements are related to high quality sound amplification and processing. Today, Zapco presents professional sound processors and amplifiers, as well as a wide range of electronic equipment for SQ-systems of any complexity.

PROLOGY

Since 1996

✓In 1996, the Prology brand was officially registered in the Russian Federation. In 1997, first Prology devices appeared in the domestic market of car receivers and speaker systems.

✓First car LCD TVs that appeared in the Russian market in 2000, were manufactured by Prology.

✓Prology is the only brand in the Russian market that adheres to a transparent pricing policy and remains affordable for a wide consumer audience.

✓We are proud to have highly professional and creative designers and engineers who work hard and find ways to make our products even more advanced yet user-friendly and affordable.

✓In 2023, we patented the invention of the world's first 8-channel media receiver with a built-in DSP. The patent makes our CDP KRAKEN series of 1DIN head units a unique offer in the Russian market.

PROLOGY

Since 1996

Today, Prology portfolio includes a wide range of head units, from entry-level inexpensive FM USB/BT receivers to the most complex multimedia devices with the best navigation software and advanced functions. We also design and manufacture speaker systems, subwoofers, amplifiers, and a wide variety of car accessories.

HEAD UNITS

Prology offers its customers an extensive line-up of head units that includes all popular types in various price ranges.

- ✓1DIN Entry Level
- ✓1DIN Mid Price Range
- ✓1DIN DSP
- ✓2DIN
